It was in the year 1869 that, impressed with the degree in which, even during the last twenty years, when the world seemed so wholly occupied with other matters, the socialist ideas of speculative thinkers had spread among the workers in every civilized country, Mr. Mill formed the design of writing a book on Socialism. Convinced that the inevitable tendencies of modern society must be to bring the questions involved in it always more and more to the front, he thought it of great practical consequence that they should be thoroughly and impartially considered, and the lines pointed out by which the best speculatively-tested theories might, without prolongation of suffering on the one hand, or unnecessary disturbance on the other, be applied to the existing order of things. He therefore planned a work which should go exhaustively through the whole subject, point by point; and the chapters now printed are the first rough drafts thrown down towards the foundation of that work. These chapters might not, when the work came to be completely written out and then re-written, according to the authors habit, have appeared in the present order; they might have been incorporated into different parts of the work. It has not been without hesitation that I have yielded to the urgent wish of the editor of this Review to give these chapters to the world; but I have complied with his request because, while they appear to me to possess great intrinsic value as well as special application to the problems now forcing themselves on public attention, they will not, I believe, detract even from the mere literary reputation of their author, but will rather form...
