Bloomsbury. 1 Cloth(s), 2012. hard. Book Condition: New. This original account and analysis of a key period of military history not only links the two world wars but also anticipates the more complex nature of conflict following the Cold War. Historian and foreign policy expert Jeremy Black connects the lessons of trench warfare in the campaigns of 1918 to the fall of France in 1940, a period when militaries, governments, and citizens prepared for another major struggle. Black also considers the context of long-term questions in military history, including symmetrical and asymmetrical warfare, the tensions surrounding innovation, the pressures of technological change, and the impact of ideology on the causes and conduct of war. 304.
