Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Directions for Laboratory and Field Work in Zoology: For Use in Connection With Practical Zoology Many of the animals that are important economically are very difficult to obtain, and directions for the study of these have, of course, been omitted. These animals should, however, be demonstrated to the students whenever possible. A list of species suitable for laboratory study may be compiled from the textbook, and specimens may be obtained from the dealers whose names appear in the appended list. Details such as topics for library study, questions for review, etc., have purposely been omitted from this laboratory manual in order that each teacher may have an opportunity to carry out his own ideas regarding these subjects. It has also been left for the teacher to decide which of the exercises should be shortened, or left out entirely, if the time necessary for studying them all is not available. The methods of teaching zoology and physiology are ably treated in Part II of Lloyd and Bigelow s book, The Teaching of Biology in Secondary Schools, published by Longmans, 1904. Price \$1.50. Discussions of courses in zoology will also be found in current numbers and back volumes of the magazine School Science and Mathematics. Laboratory equipment and supplies may be obtained from the following dealers. Catalogues may be secured from them through a simple postal card request. Bausch Lomb Optical Co., Rochester, N.Y. Branches in many cities. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the...
