Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Woodwork for Beginners This book has been written in the hope that it may be of service in those grammar schools where a more extended treatment of subject-matter, such as that contained in the author s Essentials of Woodworking, is not possible of utilization to an extent sufficient to warrant its adoption as an individual text. The average time presupposed for the accomplishment of the subject-matter contained herein, with its efficient application in the form of projects or models, is from one to three hours a week for a period of two years, or its equivalent. One-third of this time may well be devoted to correlated mechanical drawing. With the limited time at the student s disposal as presupposed in this text, there is hardly time for any study of related informational matter, such as trees and tree growth. Then, too, in many schools such subject-matter is efficiently treated in the classes in nature study, or should be. The teacher desiring an outline of a course in woodwork with drawings of possible projects suitable for grammar grades is referred to the author s Correlated Courses in Woodwork and Mechanical Drawing. Assignment of text for study should be by sections, as they relate to the shopwork being done, rather than by page sequence.
