They form the pellets while the material remains moist, and leave them in the sun before they attempt to roll them In moving them from place to place, both they and their balls may frequently be seen tumbling about over the little eminences in their way. They are not, however, easily discouraged, and, by repeating their attempts, usually overcome the difficulties. 13. Another beetle is called an animated stick, or walking-stick. He is long and thin like The WaiUng-stieh. a stick or twig, and his six legs are like smaller twigs; and because he so closely resembles the smaller limbs of a tree, it is difficult to find him. An attempt to catch one of these walking-sticks with a pair of scissors only succeeded in cutting the creature in two, when the head-end walked one way, and the tail-end walked in an opposite direction. Of the walking-stick there are several varieties, none of which are known to be harmful or destructive. CHAPTER XVIII. FRUIT AND GRAIN DESTROYERS. 1. The insect tribe is sometimes a powerful enemy, because its individuals are so small that their presence is not noticed; because their way of working is crafty, and their tools are perfect; and because their numbers are immense. A little creature half as large as a mosquito seems to be harmless, because it is so small; but, for this very reason, it can work in a head of...
