

History of Rotating Machinery Dynamics (Hardback)

Filesize: 6.52 MB

Reviews

It is one of my personal favorite book. It is one of the most incredible ebook i have got go through. You will not feel monotony at at any moment of your own time (that's what catalogues are for relating to if you ask me).

(Giuseppe Mills)

HISTORY OF ROTATING MACHINERY DYNAMICS (HARDBACK)

To read **History of Rotating Machinery Dynamics (Hardback)** eBook, make sure you access the link below and download the file or have accessibility to additional information which might be relevant to HISTORY OF ROTATING MACHINERY DYNAMICS (HARDBACK) book.

Springer, Netherlands, 2011. Hardback. Book Condition: New. 234 x 155 mm. Language: English . Brand New Book. This book starts with the invention of the wheel nearly 5000 years ago, and via Archimedes, Aristotle and Hero describes the first practical applications such as water wheels and grinding wheels, pushing on to more rigorous scientific research by inquiring minds such as Leonardo da Vinci and Copernicus in later ages. Newton and Leibniz followed, and beam structures received maximum attention three centuries ago. As focus shifts and related disciplines such as mathematics and physics also develop, slowly turbomachines and rotor and blade dynamics as we know the subject now take shape. While the book traces the events leading to Laval and Parsons Turbines, the emphasis is on rotor and blade dynamics aspects that pushed these turbines to their limits in the last century. The tabular and graphical methods developed in the pre-computer era have taken different form in the last fifty years through finite element methods. The methods evolved in the last century are discussed in detail to help modern day designers and researchers. This book will be useful to young researchers and engineers in industry and educational institutions engaged in rotor and blade dynamics work in understanding the past and the present developments and what is expected in future. Faculty and industry engineers can benefit from this broad perspective history in formulating their developmental plans.
